<p>&lt;Mr. Norman was calling to confirm the deadline for the comment period on the HAPs proposed test rule.</p> <p>I explained that the comment period for the proposed test rule will be extended beyond the current 9/30/97 deadline. This is because the Agency is preparing an amendment to the HAPs proposal to cross reference the new TSCA test guidelines and make available a revised economic assessment that takes into consideration the new guidelines. In addition, the amendment will clarify a few points in the original proposal. I indicated that we intend to publish the amendment as soon as possible and that the comment period would be extended to allow sufficient time to respond on the HAPs rule, as amended (i.e., at least 30 days).&gt;</p>
